The Commonwealth of Virginia is committed to providing a quality education for all students. The Virginia School Report Card provides transparent information about the performance of Virginia's schools. School accreditation and federal accountability ratings for a specific school year are based on student achievement on tests taken during the previous academic year.

### **Proficiency Gap Dashboard for Federal Accountability**

Under Virginia's approved Elementary and Secondary Education Act waiver application, schools must meet increasing targets — referred to as Annual Measurable Objectives (AMOs) — in reading and mathematics for all students, three "Proficiency Gap Groups," and other subgroups in order to meet federal accountability requirements. Schools have three ways to meet the AMOs: test results from the most recently completed school year, test results based on a three-year average, or by reducing the failure rate by 10 percent. High schools must also meet the federal graduation indicator for all groups. "Proficiency Gaps" report the differences in performance of traditionally underperforming student subgroups as compared with established AMOs. The AMOs vary by Proficiency Gap Group based on performance of students in each group on SOL tests administered in 2011-2012; however, AMOs in mathematics will increase annually until 2017-2018 when the mathematics objective will be 73 percent for all groups.

#### **Federal Annual Measurable Objectives**

Under federal requirements, Virginia is required to establish annual measurable objectives (AMOs) for proficiency in reading and mathematics test participation and performance for all subgroups. In addition, schools with a graduating class must meet federal graduation requirements for all subgroups of students. The table below displays whether or not the subgroups represented at the school met federal AMOs. More detailed federal AMO data are available in this report card. Schools with one or more subgroups not meeting a target— and not identified as a Title I Priority or Title I Focus school— are required to implement an improvement plan.

### **Federal Graduation Indicator**

High schools, school divisions and the state must meet annual objectives for the percentage of students who graduate with a Standard or Advanced Studies Diploma. This objective is known as the Federal Graduation Indicator to distinguish it from the Virginia On-Time Graduation Rate, which includes all Board of Education-approved diplomas.

| Federal Graduation Indicator |          |                           |                           |                           |

### Assessment Results at each Proficiency Level by Subgroup

The Virginia Assessment Program includes Standards of Learning (SOL) tests and other statewide assessments in English, history/social science, mathematics, and science. The tables below provide information for the three most recent years on the achievement of students on these tests, including percentages of students who demonstrate proficiency and advanced proficiency. Annual accountability ratings are based on achievement during the previous academic year or combined achievement from the three most recent years. **Only student subgroups represented are listed.**

## Four-Year Virginia On-Time Graduation Rate

The Virginia On-Time Graduation Rate expresses the percentage of students who earned a Board of Education-approved diploma within four years of entering high school for the first time. Percentages are based on longitudinal student-level data and account for student mobility and retention and promotion patterns.

### **Program Completion Information**

A Virginia high school diploma tells potential employers that the graduate possesses the skills and knowledge required for success in the workplace. It tells colleges, universities, and career and technical schools that the bearer is ready for the rigors of post-secondary education. This table provides program completion information for the three most recent years.

### **Career and Technical Education**

Secondary schools report the number of credentials earned by students for passing occupational competency assessments recognized by the National Occupational Competency Testing Institute (NOCTI), state licensure examinations, industry certification examinations, and workplace readiness skills assessments. Prior to 2010-2011, workplace readiness skills assessments were included in the Industry Certification category, but now are reported separately.
